

## Minor Changes/Updates to Make to StarCellBio

### Homepage

Delete 'Create Instructors Account' link - **DONE**

Delete 'Instructor Resources' button - **DONE**

Delete 'See more' button - **DONE**

Add the promotional video to the homepage (in current gray box placeholder on the right side of the page).

The link to the promotional video on YouTube is: <http://youtu.be/Rq`DHjI-GHg> - **Done**

Remove the 'Funding' link at the bottom of the homepage

Add a 'Videos' icon to the top right of the homepage (and every page within StarCellBio). The order of the icons at the top of the page should be (from left to right): Contact, Library, User Guide, Videos. When a user clicks on the 'videos link' it should take the user to the following YouTube website (playlist of the StarCellBio

videos): <http://www.youtube.com/playlist?list=PLZhxxzyMIQIHhQ2TOGm3HNLA04ZsTmOLW>

Add the videos icon and the text 'Videos' in the User manual pop up window - to the right of the Popout icon.

### Assignments

Add Lisa's new exercises to StarCellBio:

- Exercise 1
- Exercise 2
- Exercise 3

Add a PDF version of each of the exercises available from the "printer" icon in the lower left corner of the assignments window. The PDF versions are in Dropbox and have "\_questions" at the end of the exercise name.

Create a new "course" with the course code of 'SCB\_SampleExercises' for these exercises

The course name that appears in the Assignments window should say: "Sample Exercises"

Make these exercises available when users click on 'Try an Experiment'

Move the usability exercises that are currently available when users click on 'Try an Experiment' to a course called 'Usability'

### Experiments Tab

Fix the positioning of the "1. Design" button in the navigation bar - **DONE**

### Setup & Run page (within Experiments Tab)

Remove the 'In the Lab' feature box - **DONE**

The 'In the Lab' feature box should also be removed on the "read-only" version of the experiment setup page (you access the read-only version when clicking on setup after you have confirmed your experimental setup).

### Flow Cytometry Experimental Technique

Add the flow cytometry animation to the 'In the Lab' feature (<http://youtu.be/2P7YsJ0Zkio>)

Add the fluorescence animation to the 'In the Lab' feature (<http://youtu.be/pFtO0xxJL9s>)

### Microscopy Experimental Technique

Add the basic microscopy animation to the 'In the Lab' feature (<http://youtu.be/iOfFP7jyzIg>)

Add the fluorescence microscopy animation to the 'In the Lab' feature (<http://youtu.be/eEr9p14Jswk>)

Add the fluorescence animation to the 'In the Lab' feature (<http://youtu.be/pFtO0xxJL9s>)

### Lab Notebook Tab

Change the name from 'Lab Notebook' to 'Lab Report' - **DONE**

When users click on Lab Report, keep the error message, but change it to say: "The lab report feature is currently under construction."

### **Library**

Update the reference library. I have updated the Reference library wiki ([https://starwiki.mit.edu/stardev/cellbio/ref\\_library.html](https://starwiki.mit.edu/stardev/cellbio/ref_library.html)) by incorporating images and embedding animations in the library. I do know that the information from the wiki needs to be formatted appropriately to make it look like the current reference library, accessed through the library link at the top of each page.

### **'Forgot password?' link in 'Sign in' window**

When you click on this link and get the email to reset your password, the email contains a link that doesn't work. It is unclear what you are supposed to do to reset your password. This email needs to be specific for starcellbio. This means that instead of 'example.com' it should display 'starcellbio.mit.edu'. Also the link to reset the password needs to be correct. This is what is currently displayed in the email:

You're receiving this e-mail because you or someone else has requested a password for your user account at [example.com](http://example.com).

It can be safely ignored if you did not request a password reset. Click the link below to reset your password.

<http://example.com/accounts/password/reset/key/1-3w1-dce581bbf263d12eb789/>

In case you forgot, your username is ald32.

Thanks for using our site!

Change the link to say "Forgot password?" instead of "Forget password?"
